## Work Experience

### **IFASHION GROUP: FINANCE INTERN**

May 2018 - Sep 2018

Singapore

Worked closely with CFO in managing and analyzing newest and past financial data, looking at financial performance and identifying trends, ensure accurate financial reporting through bank reconciliation, account receivables & payables reconciliation (through Xero accounting platform), ad-hoc entries, and finalizing the exported data in Excel using macros, pivot tables, V-lookup, conditional formatting, etc.

Worked closely with the finance team, forming FP&A, consulting with the management team to develop long-term commercial plan, evaluate financial performance by comparing and analyzing actual results with plans and forecasts, aid in the capital budgeting and expenditure planning processes, suggesting budgets and improvements based on insights gathered, exploring different investment opportunities, perform market research, data mining, business intelligence, and valuation comps, developing financial models and providing financial forecast, developing initiatives and policies that may improve financial growth, guide the cost analysis process by establishing and enforcing policies and procedures, conduct comparable company analysis to support internal financial analysis, preparing report which include key metrics, financial result, variance analysis and communicating insights to the senior management of the company and its subsidiaries companies that are operating across Southeast Asian countries (Indonesia, Vietnam, Thailand, Malaysia, Laos, and Singapore).

Managed \$10M+ worth of Financial and Inventories Data of its four subsidiary companies, Dressabelle (Women Fashion), Invade (Office Space Provider), Red Republics (Event Organiser), and Megafash (Retail). Gathering missing data, cleansing of data, analyzing data, designing models and formulating charts, diagrams, dashboards (using Excel & Power BI), and present key metrics and recommendations to the CFO.

#### **GOFLEET INTERNATIONAL: MANAGEMENT TRAINEE**

May 2019 - Sep 2019

Dubai, United Arab Emirates

Worked closely with the CEO, conducted a firm's Target Operating Model (TOM) for its underground airport project, and prepared top management presentations for its clients, Dnata, Emirates Group, and Dubai Airport.

Collaborated with data analysts, engineers, and project teams in managing \$20M+ worth of the vast amount of telematics data. Gathered and analyzed data & functionalities requirements from clients, applied data modeling techniques and designed workflow into a process map (using Visio), investigated the data by assigning formulas, sorting, filtering, formatting, and transmuted them into charts, diagrams, and dashboards such as assets utilization matrix, fuel consumption matrix, vehicles idling time, ROI, etc. Followed by UAT (user acceptance testing) for the company's clients, Dnata and Emirates Group.

Team up with senior engineers in scheduling project operational tasks by managing and assigning competing resources and priorities for a range of tasks to meet targeted dates and cost efficiency benchmark. Prepared controls and improved procedures, formulated charts (Power BI), utilize management tools like Gantt chart to monitor deliverables and ensure timely completion of projects (meeting milestones), perform weekly and monthly reviews and analyses of current processes using operational metrics and reports. Conducted insightful, ad hoc analyses to investigate ongoing or one-time operational issues, and inform project progress across stakeholders.

Worked together with project manager in determining business objectives, evaluating business processes, performing requirements analysis, mapping and designing workflow chart and diagrams of product integration and product introduction (Visio), conduct and coordinate financial, product, market, operational, and related research to support strategic and business planning within the various departments and programs of the client group, uncovering areas for improvement, developing project plans, leading ongoing reviews of business processes and developing optimization strategies, ensuring solutions meet business needs and requirements, communicating insights and plans to cross-functional team members, management and other stakeholders for the company's Dubai Airport Underground Project.

Conducted primary and secondary market research on the feasibility and viability of electric bikes in Dubai as a mode of delivery in the F&B sector. Interpret, evaluate and interrelate research data and develop integrated business analyses and projections for incorporation into strategic decision-making, these include coming up with entry strategy, competitive market analysis, tactics, functional strategies, business strategies, and corporate strategies and present findings to the internal stakeholders.

Redesigning the company's profile deck, website UI/UX, and brochures. Arranging Excel and PowerPoint training for the junior team. Involved in hiring, preparing tests, and selecting new potential candidates alongside the HR manager and the CEO.

#### **Additional Information**

1st Place ABACUS Regional competition 2009, Champion in ABACUS Provincial competition 2009, and Runner-up in ABACUS national competition 2010 (Indonesia).

## Basic Office Tools :

Microsoft Office (Excel, Access, Powerpoint, Outlook)

## Background in Web Development:

Familiarised back end tools or concepts: NodeJs REST API, JSON, and libraries like Docker, Redis, JWT, Stripe payment integration. In terms of security: Https, XSS&CSRF, injections, Bcrypt (encryption and decryption), secure headers, GraphQL, Apollo, and serverless.

DevOps(AWS tools): CloudFront, EC2, Lambda, and S3.

Familiarised front end tools or concepts: Javascript, CSS, SCSS, HTML, ReactJS (Redux, Redux-saga, Hooks, React performance - e.g React Lazy, Suspense, useMemo), GatsbyJs, Bootstraps, UI-materials, JQuery, NextJs, Threejs, Typescript, Testing (Unit Testing, Screenshot Testing - Jest library), Code Splitting, PWA, WebGL, and ThreeJS.

Databases tools : Firebase, PostgreSQL, MongoDB.

Cloud or web hosting platforms: Heroku, Netlify, and DigitalOcean

Other tools or concepts: Microsoft Visual Studio, Hyper, NPM, Github, SSH, Refactoring, CI/CD(CircleCI), SEO, Google Analytics, CMS, Server-side rendering, Client-side rendering.

Other well-versed web development platforms like Wix, Web Flow, Shopify, and WordPress.

## Background in Design:

Certified in UI/UX design, uses Figma. Proficient in using Adobe Creative Suite. Some understanding of Blender and Twinmotion.

## Background in Statistics and Data Analysis:

Programming Language : Python (libraries : Pandas, Matplot, Numpy, etc.), R  
Tools : Excel, Power BI (Query Editor, Model - Relationship & DAX, Visualisation) , working on Tableau and SAS.

## Languages:

English(Full Professional Proficiency), Bahasa Indonesia(Mother Tongue), Malay(Full Professional Proficiency), and Mandarin(beginner).

Currently working towards gaining a CPA certificate. To see my portfolio, visit [web-resume.vercel.app](https://web-resume.vercel.app)
